PROFESSIONAL SUMMARY

Computer Science and Engineering graduate with a strong foundation in Java, Python, SQL, web development, and object-oriented programming. Completed Java Full Stack Web Development internship training with hands-on experience in web application development, back-end logic, database operations, CRUD functionality, debugging, and testing. Seeking an entry-level Software Developer role to apply programming and problem-solving skills.

TECHNICAL SKILLS

Programming Languages: Java, Python

Web Technologies: HTML, CSS, JavaScript

Frameworks: Spring Boot, Hibernate

Databases: MySQL, SQL

Core Concepts: Object-Oriented Programming (OOP), JDBC, JEE

Tools: Eclipse, VS Code, Git, GitHub

INTERNSHIP EXPERIENCE

Java Full Stack Web Development Intern | Tap Academy, Bangalore **Feb 2026 – Sep 2026**

- Developed responsive web application modules using HTML, CSS, JavaScript, Java, and MySQL.
- Implemented backend logic and database operations, including CRUD functionality using Java and SQL.
- Integrated frontend and backend components to support smooth application data flow.
- Debugged and tested application functionality and fixed issues to improve reliability.

PROJECTS

SecureBank Banking Management System | Java, MySQL, HTML, CSS, JavaScript, JWT

- Developed a full-stack banking application with JWT-based authentication and authorization.
- Implemented account management, fund transfers, loan processing, EMI calculation, and PDF statement generation.
- Built an admin dashboard with analytics and reporting for accounts, transactions, and banking operations.

Advancing Fake Profile Detection: A Machine Learning Perspective | Python, HTML, CSS, JavaScript, SQL

- Processed social media profile datasets and applied data cleaning and feature extraction techniques.
- Implemented classification models and evaluated performance using Accuracy, Precision, Recall, and F1-Score.
- Developed a web-based dashboard to classify profiles and display prediction results.

EDUCATION

Bachelor of Engineering (B.E.) in Computer Science and Engineering **Dec 2022 – May 2026**

Angadi Institute of Technology and Management, Belagavi | CGPA: 8.2/10

CERTIFICATIONS & TRAINING

- Java Full Stack Web Development – Tap Academy
- AWS Cloud Operations, Developing, Foundations
